

Thermocouples with compensating cable Series 220

Thermocouple with a fix connected compensating cable and adjustable thread joint; for application in ship building

Construction

Basic implementation
GL-implementation

Connection head

ball type head \varnothing 25 of stainless steel

Protection classification

IP 54 according DIN 60529

Application temperature

up to +800 °C

Thermo junction

K (NiCr-Ni) DIN EN 60584
on inquiry

Number of Thermo junction

1 thermocouple

Protective tube material

1.4571
on inquiry

Insert length L_1

100 mm
160 mm
200 mm
250 mm
on inquiry

Compensating cable length L_2

1500 mm
on inquiry

Type of compensating cable

TGIV 2x1,5
on inquiry

Thermocouples
with compensating cable
Series 220

Thread

M18x1,5
M20x1,5
G1/2A
G3/4A
