

Thermocouples
Special stainless steel sheathed thermocouples
Model series 280

Sheathed Thermocouple with a little cylindrical connection head for screwing in; process sealed welded in
Attention: Bending radius of the sheath material $>5x \varnothing d$

Protection classification

IP 68 according DIN 60529

Application temperature

-200 to +1000°C

Number of Thermo junction

1 thermocouple

Sheath diameter

1,5 mm
2,0 mm
3,0 mm
4,5 mm
6,0 mm
on inquiry

Sheath material

1.4541
1.4571
1.4841
on inquiry

Measuring point design

insulated of sheath
welded in sheath

Insert length L1
