

Cable sensors
Without attaching parts
Model series 500

Sheathed Thermocouple-Cable Sensor with stainless steel ring and thermo braided wire;
Attention: Bending radius of the sheath material $>5 \times \varnothing d$

Application temperature

up to $+800^{\circ}\text{C}$

Number of Thermo junction

1 thermocouple
on inquiry

Sheath material

1.4571
on inquiry

Material of the ring

brass
on inquiry

Measuring point design

insulated of sheath
welded in sheath

Nominal length L

500 mm
on inquiry

Compensating cable length L2

on inquiry

Type of compensating cable

GIGIV 2x0,22
on inquiry
